

Person

Comparable< Employee >

Object\_Tier.Employee

```
graph BT; OE[Object_Tier.Employee] --> P[Person]; OE --> C[Comparable< Employee >];
```

The diagram illustrates the relationships between three classes. At the bottom is a gray box labeled 'Object\_Tier.Employee'. Two blue arrows point upwards from this box. One arrow points to a white box labeled 'Person' on the left. The other arrow points to a white box labeled 'Comparable< Employee >' on the right. This indicates that 'Object\_Tier.Employee' inherits from 'Person' and implements the 'Comparable< Employee >' interface.
